CAREER PROFILE

Results-oriented professional with 15+ years of experience in the online education field as a math editor and instructional designer. Seeking a new challenge to leverage problem-solving skills and attention to detail in a software development career.

PROFESSIONAL EXPERIENCE

Math Editor

2005-2008, 2011-2022

Thinkwell Inc., Austin, Texas

Thinkwell is an online publishing company offering homeschool and college courses.

- Collaborated with artists, editors, and subject matter experts to design lesson materials for online math courses.
- Produced and published engaging content for middle school, high school, and college math courses.
- Assisted in the development and maintenance of video lectures, textbooks, worksheets, and online resources.
- Responded to and resolved customer needs, including organizing content on different learning management systems, creating assessments, and correcting errata.
- Worked closely with sales and support teams to ensure customer satisfaction.

Instructional Designer/Subject Matter Expert

2008-2011

Compass Learning (Now Edgenuity,), Austin, Texas

Compass Learning was an e-learning company offering digital curriculum for grades K-12

- Designed activities and developed math curriculum content, including video lessons, questions, and assessments.
- Worked in a team with writers, editors, and graphic artists in the development of new products.
- Managed and trained contractors in the tracking and development of new products.
- Aligned courses with state standards, developed scope and sequence, and produced new lessons, activities, worksheets, and assessments.

Math Teacher, Austin, Texas

2000-2005

Crockett High School, Austin ISD, Austin, Texas

- Instructed various math subjects, including Pre-AP Pre-Calculus, Pre-Calculus, Pre-AP Algebra II, Algebra II, and Algebra I.
- Collaborated with district teams to create assessment materials for AISD math classes.
